

Parenting With Love & Logic Seminar

Parents of children of all ages are welcome to join us for our very first Parenting Seminar! Our guest lecturer is New Self Member and Certified Love & Logic Instructor, Kathy Priem. Love & Logic is a philosophy of raising and teaching children that helps adults be happier and more skillfully empowered in their interactions with children. Love allows children to grow through their mistakes. Logic allows children to live with the consequences of their choices.

Kathy will be giving you the tools you need to reduce your stress level, build your confidence and make parenting fun again! You will learn how to set limits in a loving way, make enforceable statements and teach your kids problem solving skills. These techniques produce immediate results because they are simple, practical and easy to learn.
